TIME SAVER

If this form was completed by a business with fewer than 20 employees please provide an estimate of the time taken to complete this form.

Hours [ ] Minutes [ ]

083025I

APPLICATION FOR A TARIFF CONCESSION ORDER (TCO)

The form should be read carefully before being completed

(a) Before lodging an application for a TCO, the applicant should determine whether a suitable TCO already exists. Information on existing TCOs is contained in the schedule of Concessional Instruments *(SCI)*, a copy of which is available at each Regional Office of Customs. A TCO can be used by any importer.

(b) An application will be date stamped on the day it is first received in Canberra by an officer of Customs. Receipt of an application will be acknowledged. Any resultant TCO will operate from the date of receipt. Instructions on how to lodge this form are provided at the end of this form.

(c) Where an application is accepted as being a valid application, the identity of the applicant and of the importer for whom the applicant is acting will be published in the *Gazette*.

(d) Section 269F of the *Customs Act 1901* requires that a TCO application to be in writing, be in an "approved form", contain such information as the form requires, and be signed in the manner indicated in the form. **This is the approved form for the purposes of that section.**

(e) Section 269FA of the *Customs Act 1901* states "It is the responsibility of an applicant for a TCO to establish, to the satisfaction of the Chief Executive Officer (CEO), that, on the basis of:
(i) all information that the applicant has, or can reasonably be expected to have; and
(ii) all inquiries that the applicant has made, or can reasonably be expected to make;
there are reasonable grounds for asserting that the application meets the core criteria". The application is taken to meet the core criteria if, on the day of lodgement of the application, no substitutable goods were produced in Australia in the ordinary course of business.

(f) **Every question on the form must be answered.** Failure to supply the information required by this form will result in rejection of the application (and in the loss of operative date).

(g) Where the form provides insufficient space to answer a question, an answer may be provided in an attachment. The attachment should clearly identify the question to which it relates.

(h) All information about inquiries into the production of substitutable goods must relate to the date the application is lodged with Customs.

(i) Customs may require an applicant to substantiate, with documentary evidence, any information provided in the application form.

(j) Further information on the Tariff Concession System is available in Part XVA of the *Customs Act 1901*, in the foreword to the SCI, in the administrative guidelines in Volume 13 of the Australian Customs Service (ACS) Manual, in Australian Customs Notice No. 98/19, or by phoning (02) 6275 6666.

APPLICANT DETAILS *(An agent/broker should provide details on the next page)*

Applicant's Name	Australian Business Number (A.B.N.)
GALE PACIFIC LTD.	80082263778
Postal Address 145 WOODLAND DRIVE BRAESIDE VIC 3195	
Applicant's Reference G/TCI	**Owner Code** *(if applicable)*
Company Contact s47F	**Position Held** PLANNING MANAGER
Telephone Number s47F	**Facsimile Number** 03 9518 3391
E-mail Address s47F @GALEPACIFIC.	

If you do not intend to use the TCO to import into Australia the goods the subject of the application, you must provide, in the section below, the identity of the importer for whom you are acting (refer to paragraph 269F(3)(c) of the *Customs Act 1901*).

IMPORTER DETAILS

Importer's Name (If same as applicant, write "as above")	A.B.N.
AS ABOVE	
Postal Address	
Importer's Reference	**Owner Code**

G/TC/1	s47F
Telephone Number	**Facsimile Number**	**E-mail Address**
02 8536 7555	02 8536 7575	s47F @COMMERCIALCUSTOMS.COM

DESCRIPTION OF GOODS

(a) The description of the goods in the application will be used as the description of the goods in the TCO (if made).

(b) The application should provide a full description of the goods, including the physical features of the goods or the various components of the goods. It should not describe the goods in terms of what they do.

(c) In accordance with section 269SJ of the *Customs Act 1901*, the CEO must **not** make a TCO in respect of goods:
- (i) described in terms other than in generic terms; or
- (ii) described in terms of their intended end use; or
- (iii) declared by the regulations to be goods to which a TCO should not be extended.

Goods will be taken to be described in terms other than in generic terms if, for example, their description, either directly or by implication, indicates that they are goods of a particular brand or model, or that a particular part number applies to the goods.

(d) Guidance on the drafting of the description of goods is contained in Volume 13 of the ACS Manual and in Australian Customs Notice No. 98/19.

1 Describe the goods

FABRIC, POLYETHYLENE, RASCHELL KNIT, HAVING ALL OF THE FOLLOWING:
(a) ULTRA VIOLET STABILIZERS;
(b) COLOUR PIGMENTS;
(c) WIDTH NOT LESS THAN 0.9M AND NOT GREATER THAN 30M.

ILLUSTRATIVE MATERIAL

2 Attach technical, illustrative descriptive material and/or a sample to enable a full and accurate identification of the goods the subject of the application.

TARIFF CLASSIFICATION

3 Identify the tariff classification (to 8 figure subheading level) 6 0 0 5 3 3 0 0

Identify the General Duty rate 1 0 %

If a Tariff Advice for the goods has been sought or obtained, please provide the TA No.

☐☐☐☐☐☐☐☐ **or attach a copy.**

USES OF THE IMPORTED GOODS

4 Describe ALL uses (including design uses) to which the goods can be put.

MANUFACTURE OF SHADE CLOTH AND BIRD CONTROL NETS.

SUBSTITUTABILITY OF LOCALLY PRODUCED GOODS

(a) A local manufacturer's goods are substitutable when they are put, or are capable of being put, to a use that corresponds with a use (including a design use) to which the goods the subject of the application can be put (subsection 269B(1) of the *Customs Act 1901*). Even if not identical, locally made goods may be substitutable.

(b) In determining whether the uses of Australian produced goods correspond with the uses of the goods the subject of the application, the ability of the goods to compete with each other in any market is not relevant.

(c) The applicant must provide written information as to the inquiries made to establish that there are reasonable grounds for believing that there are no producers of substitutable goods in Australia. The application must include a copy of the research material sourced and a copy of correspondence to, and replies from, potential local manufacturers or relevant industry associations. The application will be rejected if it fails to provide all written information as to the inquiries made.

NOTE: The Australian Customs Service suggests that potential local manufacturers should be given at least 10 working days to respond to inquiries concerning local manufacture.

5 **Provide details of the nature of ALL inquiries you have undertaken in order to establish that substitutable goods are not produced in Australia, and the results of those inquiries. Attach copies of all correspondence or directory searches, etc.**

INTERNET AUSTRALIA & N.Z SEARCH DIRECTORY.
KOMPASS AUSTRALIAN MANUFACTURERS DATA BASE.

6 **Provide any additional information in support of discharging your responsibility to establish that there are reasonable grounds for asserting that there are no substitutable goods produced in Australia in the ordinary course of business.**

THIS APPLICATION IS A BROADENING OF AN EXISTING TARIFF CONCESSION TC 0608185.
THE ONLY CHANGE IS TO THE WIDTH OF THE FABRIC AS CURRENTLY SPECIFIED.
THIS APPLICATION FOR CHANGE IS BASED ON A CHANGE IN MARKET DEMAND.

PRESCRIBED ORGANISATIONS

7 **Have you made inquiries of a prescribed organisation to obtain advice about whether there are producers in Australia of substitutable goods?**

☑ YES ☐ NO **If YES, attach a copy of the advice received.**

Note that under subsection 269M(6) of the *Customs Act 1901*, the CEO may, despite section 16 of the *Customs Administration Act 1985*, give a copy of all, or of a part, of the application to a prescribed organisation.

ADDITIONAL INFORMATION

8 **Provide any additional information in support of your application.**

Copy of Existing concession TC0608185.

DECLARATION

I, s47F Position Held DIR Broker

Company (if applicable) Commercial Customs Services P/L.

declare that:

1 **To the best of my knowledge and belief the information contained in this form is correct; and**

2 **I have the authority to act on behalf of the company/applicant; and**

3 **I agree, in submitting this form by electronic means (including facsimile) that, for the purposes of Sub-Section 14(3) of the Electronic Transactions Act, this application will be taken to have been lodged when it is first received by an officer of Customs, or if by e-mail, when it is first accessed by an officer of Customs, as specified in Sub-Section 269F(4) of the Customs Act.**

Signature of Applicant/Agent/Broker s47F Date 8/9/2008.

NOTE: *SECTION 234 OF THE CUSTOMS ACT 1901 PROVIDES THAT IT IS AN OFFENCE TO MAKE A STATEMENT TO AN OFFICER THAT IS FALSE OR MISLEADING IN A MATERIAL PARTICULAR.*

WHEN THIS FORM HAS BEEN COMPLETED LODGE IT WITH CUSTOMS BY:

- posting it by prepaid post to the
  National Manager, Tariff Branch
  Australian Customs Service
  Customs House
  5 Constitution Avenue
  CANBERRA ACT 2601
  or
- delivering it to the ACT Regional Office located at
  Customs House, Canberra
  or
- sending it by facsimile to (02) 6275 6376
  or
- e-mailing it to tarcon@connect.net.au.

FOI Document #4

Bird Control Net™

Product Profile **Commercial Knitted Range**

Synthesis

Rev.4 11/05

Bird Control Net™ is a premium quality knitted drape-over barrier net designed to provide optimum crop protection against bird attack year in, year out. Bird Control Net is widely proven in all weather conditions and against bird attacks which range in scope from tiny silver eyes to larger more aggressive species including king parrots and bowers. And because Bird Control Net is made from UV stabilised High Density Polyethylene monofilament using a twin lock-stitch construction it resists tearing and fraying during installation and removal.

Bird Control Net is manufactured with a fully reinforced selvedge (which also carries the year of manufacture) and coloured centre line for easy alignment. It is available in diamond or hexagonal configurations packaged in rolls and diamond is now available in bales too. Both types of Bird Control Net come in 6 widths ranging from 6.5 m to 17 m.

The table below details the dimensions of each of the Bird Control Net products available.

Colour & Type	Packaging	Code	Nom. Width	Length	Packaged Dimensions Approx.	Volume Approx.	Weight
White Hexagon Profile	Roll	311148	6.5 m	300 m	1.30 m x 0.5 m	0.34 m³	70 kg
		311155	8.5 m		1.70 m x 0.5 m	0.44 m³	90 kg
		311162	10 m		2.00 m x 0.5 m	0.52 m³	110 kg
		311179	13 m		2.60 m x 0.5 m	0.67 m³	140 kg
		311186	15 m		3.00 m x 0.5 m	0.75 m³	160 kg
		311193	17 m		3.20 m x 0.5 m	0.85 m³	180 kg

FOI Document #6
Page 1 of 2

60.05 -Warp knit fabrics (including those made on galloon knitting machines), other than those of headings 60.01 to 60.04.

-Of cotton :

6005.21 - -Unbleached or bleached

6005.22 - -Dyed

6005.23 - -Of yarns of different colours

6005.24 - -Printed

-Of synthetic fibres :

6005.31 - -Unbleached or bleached

6005.32 - -Dyed

6005.33 - -Of yarns of different colours

6005.34 - -Printed

-Of artificial fibres :

6005.41 - -Unbleached or bleached

6005.42 - -Dyed

6005.43 - -Of yarns of different colours

6005.44 - -Printed

6005.90 -Other

Other than the pile fabrics of **heading 60.01**, this heading covers warp knits of a width exceeding 30 cm, containing no elastomeric yarn or rubber thread or containing less than 5% of such yarn or thread. Details concerning the manufacture of warp knits (including those made on galloon knitting machines) are to be found in the General Explanatory Note to Chapter 60, Part (A) (II).

Warp knit fabrics can take various forms. Apart from the traditional fabrics without openings, such as those used for making garments, they include open-work fabrics. These fabrics, made on warp knitting machines (especially Raschel machines), are often similar to net fabrics or lace (but should not be mistaken for the latter : see the Explanatory Note to **heading 58.04**) and are often used for making curtains. Like machine-made lace, such knitted or crocheted imitations of lace are often produced in fairly wide pieces which are cut into strips during the finishing process. Such strips, of indeterminate length, fall in this heading provided that their edges are straight and parallel and that their width exceeds 30 cm.

This heading also **excludes :**

(a) Bandages, medicated or put up for retail sale (**heading 30.05**).

(b)Labels, badges and similar articles, knitted or crocheted, of **heading 58.07**.

FOI Document #6

(c) Embroidered fabrics of **heading 58.10**.

(d) Fabrics of **Chapter 59** (e.g., impregnated, coated, covered or laminated fabrics of **heading 59.03** or **59.07**, rubberised fabrics of **heading 59.06**, and wicks or gas mantle fabric of **heading 59.08**).

(e) Made up articles within the meaning of Note 7 to Section XI (see also Part (II) of the General Explanatory Note to the Section).

Dear s47F ,

TARIFF CONCESSION SYSTEM
APPLICATION ACCEPTANCE

Your application for Tariff Concession Order (TCO) Number TC 0830251 has been accepted by Customs as a valid application. The application will be published in Gazette Number TC08/40 of 8 October 2008. Details of the gazette notice are shown in the attachment.

Please examine the wording of the gazette notice and advise Customs immediately if the wording does not accurately describe the goods for which a TCO has been sought. This is a verification of agreed wording not an opportunity to further amend.

Dear s47F ,

TARIFF CONCESSION SYSTEM
APPLICATION SUCCESSFUL

I refer to your application for Tariff Concession Order (TCO) Number TC 0830251 lodged on 9 September 2008.

As a delegate of the Chief Executive Officer I am satisfied that the application meets the core criteria on the basis of section 269C of the *Customs Act 1901* and have accordingly made a written Tariff Concession Order.

The decision to make a TCO will be published in Gazette Number TC08/48 of 3 December 2008.

The TCO, as detailed in the attachment, will also be published in the Schedule of Concessional Instruments as soon as possible.

Yours sincerely,

s47F

Delegate of the Chief Executive Officer

FOI Document #11

If this form was completed by a business with fewer than 20 employees, please provide an estimate of the time taken to complete this form.

Hours ____ Minutes ____

APPLICATION FOR A TARIFF CONCESSION ORDER (TCO)

The form should be read carefully before being completed

(a) Before lodging an application for a TCO, the applicant should determine whether a suitable TCO already exists. Information on existing TCOs is contained in the schedule of Concessional Instruments *(SCI)*, a copy of which is available at each Regional Office of Customs. A TCO can be used by any importer.

(b) An application will be date stamped on the day it is first received in Canberra by an officer of Customs. Receipt of an application will be acknowledged. Any resultant TCO will operate from the date of receipt. Instructions on how to lodge this form are provided at the end of this form.

(c) Where an application is accepted as being a valid application, the identity of the applicant and of the importer for whom the applicant is acting will be published in the *Gazette*.

(d) Section 269F of the *Customs Act 1901* requires that a TCO application to be in writing, be in an "approved form", contain such information as the form requires, and be signed in the manner indicated in the form. **This is the approved form for the purposes of that section.**

(e) Section 269FA of the *Customs Act 1901* states "It is the responsibility of an applicant for a TCO to establish, to the satisfaction of the Chief Executive Officer (CEO), that, on the basis of:
(i) all information that the applicant has, or can reasonably be expected to have; and
(ii) all inquiries that the applicant has made, or can reasonably be expected to make;
there are reasonable grounds for asserting that the application meets the core criteria". The application is taken to meet the core criteria if, on the day of lodgement of the application, no substitutable goods were produced in Australia in the ordinary course of business.

(f) **Every question on the form must be answered.** Failure to supply the information required by this form will result in rejection of the application (and in the loss of operative date).

(g) Where the form provides insufficient space to answer a question, an answer may be provided in an attachment. The attachment should clearly identify the question to which it relates.

(h) All information about inquiries into the production of substitutable goods must relate to the date the application is lodged with Customs.

(i) Customs may require an applicant to substantiate, with documentary evidence, any information provided in the application form.

(j) Further information on the Tariff Concession System is available in Part XVA of the *Customs Act 1901*, in the foreword to the Schedule of Concessional Instruments, in the administrative guidelines in Volume 13 of the Australian Customs Service Manual, in Australian Customs Notice No. 98/19, on the internet at www.customs.gov.au, by e-mailing information@customs.gov.au or by phoning the Customs Information Centre 1300 363 263.

APPLICANT DETAILS *(An agent/broker should provide details on the next page)*

Applicant's Name	Australian Business Number (A.B.N.)
GALE PACIFIC LTD	80 082 263 778
Postal Address P.O. Box 892, BRAESIDE VIC 3195	
Applicant's Reference GALE TC/1	**Owner Code** *(if applicable)*
Company Contact s47F	**Position Held** LOGISTICS MANAGER
Telephone Number 03 9518 3333	**Facsimile Number** 03 95183398
E-mail Address s47F @GALE.COM.AU	

If you do not intend to use the TCO to import into Australia the goods the subject of the application, you must provide, in the section below, the identity of the importer for whom you are acting (refer to paragraph 269F(3)(c) of the *Customs Act 1901*).

IMPORTER DETAILS

Importer's Name (If same as applicant, write "as above")	A.B.N.

4

AGENT/BROKER DETAILS *(if applicable)*

Agent's Name: COMMERCIAL CUSTOMS SERVICES P/L		A.B.N.: 38414210149
Postal Address: P.O. BOX 2905, TAREN POINT N.S.W 2229		
Agent's Reference: GALE TC/1.	Agency Contact: s47F	
Telephone Number: 02 8536 7555	Facsimile Number: 02 8536 7575	E-mail Address: s47F @COMMERCIALCUSTOMS.COM.AU.

DESCRIPTION OF GOODS

(a) The description of the goods in the application will be used as the description of the goods in the TCO (if made).

(b) The application should provide a full description of the goods, including the physical features of the goods or the various components of the goods. It should not describe the goods in terms of what they do.

(c) In accordance with section 269SJ of the *Customs Act 1901*, the CEO must **not** make a TCO in respect of goods:
- (i) described in terms other than in generic terms; or
- (ii) described in terms of their intended end use; or
- (iii) declared by the regulations to be goods to which a TCO should not be extended.

Goods will be taken to be described in terms other than in generic terms if, for example, their description, either directly or by implication, indicates that they are goods of a particular brand or model, or that a particular part number applies to the goods.

(d) Guidance on the drafting of the description of goods is contained in Volume 13 of the ACS Manual and in Australian Customs Notice No. 98/19.

1 Describe the goods

FABRIC, HIGH DENSITY POLYETHYLENE, (HDPE), RACHEL KNIT, HAVING ALL OF THE FOLLOWING;
(a) ULTRA VIOLET STABILIZER;
(b) COLOUR PIGMENT;
(c) WIDTH NOT LESS THAN 0.9 METRE AND NOT GREATER THAN 4 METRES.

ILLUSTRATIVE MATERIAL

2 Attach technical, illustrative descriptive material and/or a sample to enable a full and accurate identification of the goods the subject of the application.

TARIFF CLASSIFICATION

3 Identify the tariff classification (to 8 figure subheading level) 6005330C

Identify the General Duty rate 10 %

If a Tariff Advice for the goods has been sought or obtained, please provide the TA No.

☐☐☐☐☐☐☐☐ **or attach a copy.**

USES OF THE IMPORTED GOODS

4 Describe ALL uses (including design uses) to which the goods can be put.

MANUFACTURE OF SHADE CLOTH, SAFETY FENCING, ORCHID COVERS.

FOI Document #11

SUBSTITUTABILITY OF LOCALLY PRODUCED GOODS

(a) A local manufacturer's goods are substitutable when they are put, or are capable of being put, to a use that corresponds with a use (including a design use) to which the goods the subject of the application can be put (subsection 269B(1) of the *Customs Act 1901*). Even if not identical, locally made goods may be substitutable.

(b) In determining whether the uses of Australian produced goods correspond with the uses of the goods the subject of the application, the ability of the goods to compete with each other in any market is not relevant.

(c) The applicant must provide written information as to the inquiries made to establish that there are reasonable grounds for believing that there are no producers of substitutable goods in Australia. The application must include a copy of the research material sourced and a copy of correspondence to, and replies from, potential local manufacturers or relevant industry associations. The application will be rejected if it fails to provide all written information as to the inquiries made.

NOTE: The Australian Customs Service suggests that potential local manufacturers should be given at least 10 working days to respond to inquiries concerning local manufacture.

5 **Provide details of the nature of ALL inquiries you have undertaken in order to establish that substitutable goods are not produced in Australia, and the results of those inquiries. Attach copies of all correspondence or directory searches, etc.**

SEARCHED ALL LISTED SITES FOR PRODUCT IN WWW.ANZNEWS.COM NO COMPANY LISTED AS A LOCAL PRODUCER. ALL LISTINGS SHOW IMPORTED PRODUCT.

6 **Provide any additional information in support of discharging your responsibility to establish that there are reasonable grounds for asserting that there are no substitutable goods produced in Australia in the ordinary course of business.**

GALE PACIFIC ADVISE THAT THEY WERE THE ONLY LOCAL PRODUCER OF THE FABRIC. TO VENTURE IN TO THE GLOBAL MARKET THEY MOVED THE MANUFACTURING FACILITY TO CHINA (SEE ATTACHED MEDIA STATEMENT)

FOI Document #11

PRESCRIBED ORGANISATIONS

7 **Have you made inquiries of a prescribed organisation to obtain advice about whether there are producers in Australia of substitutable goods?**

☑ YES ☐ NO **If YES, attach a copy of the advice received.**

Note that under subsection 269M(6) of the *Customs Act 1901*, the CEO may, despite section 16 of the *Customs Administration Act 1985*, give a copy of all, or of a part, of the application to a prescribed organisation.

ADDITIONAL INFORMATION

8 **Provide any additional information in support of your application.**

See ATTACHED ASX STATEMENT.

DECLARATION

I, s47F | Position Held DIRECTOR

Premium Plus™

Product Identification **Shadecloth Range**

Synthesis

Rev.4 05/05

How do I identify Premium Plus?

Premium Plus is Gale Pacific's high quality general purpose knitted shade cloth. Made from UV stabilised High Density Polyethylene (HDPE), Premium Plus is available in a range of colours and cover factors.

In accordance with AS 4174 Premium Plus shadecloth is labelled according to the cover factor. The following diagrams and tables provides and explanation in identifying the exact type and approximate age of Premium Plus.

Colour Thread	Cover Factor
Midnight Green	30%
Red	50%
Blue	70%
White	80%

Colour Thread	Year of Manufacture
Kiwi Green	1998/99
Brown	2000/01
Pink	2001/02
Grey	2002/03
Red	2003/04
Mushroom	2005

Commercial 95

Commercial 95™ is a high quality, heavy duty knitted shadecolth specifically developed as a very strong and stable outdoor fabric for use in tension structures and shade sails. Commercial 95™ offers the ultimate combination of maximum sun protection, strength and durability to ensure maintenance free long life performance.

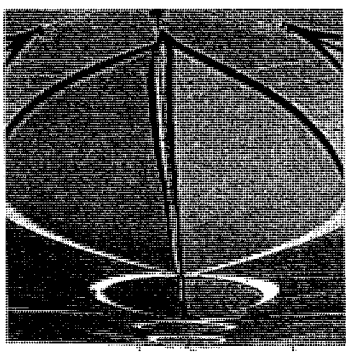
Commercial 95™ is manufactured in 13 colours to compliment architectural trends and enhance existing structures, while providing the ideal shade solution for school playgrounds, child care centres, sporting facilities, car parks and many other commercial applications.

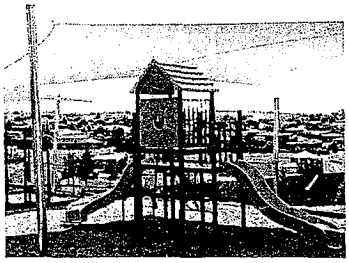
FEATURES

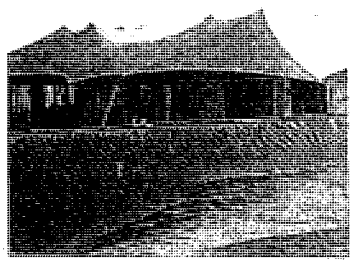
- UV stabilised High Density Polyethylene fabric won't rot or absorb moisture
- Monofilament yarn in the warp and weft direction for strength
- Tape yarn in the weft direction for excellent UV block
- Unique high quality lock stitch construction for superior impact and tear strength
- Up to 98.8% UV R block
- 13 contemporary colours
- Heat set to minimise shrinkage and eliminate curling during fabrication
- Manufactured in Australia
- 10 year UV warranty on fabric

APPLICATIONS & MARKETS

- Tension structures and shade sails
- School playgrounds and child care centres
- Sporting facilities and swimming pools
- Car parks







FOI Document #13

Commercial 95™

Product Profile — **Shadecloth Range**

Synthesis

Rev.4 06/05

Product Description

Commercial 95™ is a high quality knitted shade fabric supplied in bulk rolls, designed for tension structures, awnings and shade covers specifically for commercial architectural applications.

Material

Yarn	UV stabilised HDPE
Construction	Mono filament & tape
Pattern	Lock-stitch knitted
Temperature range	-30°C to +75°C

Features

Strong HDPE fabric won't rot or absorb moisture.
Stentered (heat-set) to reduce shrinkage and for ease of fabrication.
10 year UV warranty on fabric.
Made in Australia to meet harsh weather conditions.

Usage Instructions

Do not use against flames.
Contact with organic solvents, halogens or highly acidic substances may reduce the service life of the fabric and void the warranty.
Biaxial elastic material properties available on request.

Properties

Nominal fabric mass *(AS 2001.2.13)*	340 gsm ± 20
Approximate thickness	1.6 mm

Performance

Tensile Strength - Warp	737 N/50mm
Tensile Strength - Weft *(AS 2001.2.3.1)*	1592 N/50mm
Wing Tear – Warp (mean)	143 N
Wing Tear – Weft (mean) *(AS 2001.2.10)*	203 N
Bursting Pressure (mean) *(AS 2001.2.4)*	3200 kPa
Bursting Force (mean) *(AS 2001.2.19)*	1758 N

Flammability

(AS 1530.2)
Flammability Index *(range 0-100)* 17
AS 1530 Part 2 & 3 certificates available on request

Suggested Specification

Shadecloth fabric shall be compliant to Australian standard AS 4174 and shall be Synthesis Commercial 95 knitted HDPE monofilament & tape shade fabric offering a UV block up to 98.8%.

FOI Document #13

Fencestop

Fencestop™ is a temporary knitted visual barrier fence that offers an economical alternative for safety fencing on building sites and effective pedestrian control around roadwork and construction sites. It's lightweight, easy to install, reusable and features a strong nylon cord at the top of the fabric which enables easy tension adjustment and attachment to fence posts.

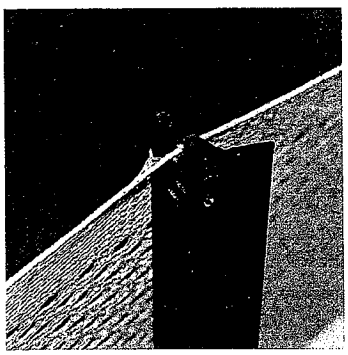
Fencestop™ is made from a sophisticated UV stabilised High Density Polyethylene tape using a knitted lock stitch construction that results in a fabric that will withstand prolonged exposure to harsh environments and will not tear or fray if cut.

FEATURES

- Knitted lock stitch construction for high impact and tear strength
- Strong High Density Polyethylene won't rot or absorb moisture
- High visibility UV stabilised orange and yellow colour resists fading
- Integrated fixing cord for quick installation
- Lightweight and easy to use
- Reusable year after year

APPLICATIONS & MARKETS

- Visual safety fence
- Roadworks
- Mining
- Construction



FOI Document #13

Fencestop™

Product Profile **Commercial Knitted Range**

Synthesis

Rev.3.05/05

Product Description

Fencestop™ is a yellow & orange, light weight knitted polymer fabric sold in bulk rolls, designed for temporary pedestrian barriers and fencing.

Material

Yarn	UV stabilised HDPE
Construction	Tape yarn & nylon rope
Pattern	Lock-stitch knitted
Temperature range	-30°C to +75°C

Features

Strong HDPE fabric won't rot or absorb moisture.
Lock stitch construction won't tear or fray if accidentally cut.
Made in Australia to meet harsh weather conditions.
UV stabilised high visibility orange/yellow colours that resist fading.
Integrated nylon stringing cord for quick and easy installation on standard metal stakes.

Properties

Nominal fabric mass *(AS 2001.2.13)*	88 gsm ±10
Approximate thickness	1.00 mm

Performance

Tensile Strength - Warp	265 N/50mm
Elongation at break *(AS 2001.2.3.1)*	55.6 %
Tensile Strength - Weft	125 N/50mm
Elongation at break *(AS 2001.2.3.1)*	54.8 %
Wing Tear – Warp (mean) *(AS 2001.2.10)*	61.8 N
Wing Tear – Weft (mean) *(AS 2001.2.10)*	36.4 N
Bursting Pressure (mean) *(AS 2001.2.4)*	475 kPa
Bursting Force (mean) *(AS 2001.2.19)*	263 N

Usage Instructions

Fencestop™ is not designed as a motor vehicle safety barrier or load restraint barrier.
Fabric is not flame proof.
Contact with chemicals that contain sulphur, halogens or highly acidic substances may reduce the service life of the fabric.

FOI Document #14

Announcement to the Australian Stock Exchange

14 June 2005

Gale Pacific Positions Itself for Continuing Northern Hemisphere Growth

A rapid increase in demand from customers in the northern hemisphere has resulted in Gale Pacific Limited deciding to restructure part of its Braeside manufacturing operation.

Gale Pacific is the leading producer of advanced polymer fabrics and related value-added products, with approximately 1500 employees worldwide.

The Board of Gale Pacific Ltd has approved a proposal to restructure the Company's global operations so it can continue to grow and meet increasingly demanding lead times from its rapidly growing northern hemisphere customer base.

The restructure will involve the redundancy of approximately 100 Braeside manufacturing positions, with a significant portion of production being transferred to Gale Pacific's wholly owned China facility. Following the restructure, the Company will retain and grow the significant production capability of Gale Pacific's remaining industrial fabrics plants in Braeside and New Zealand.

Gale Pacific will honour all staff entitlements and provide significant outplacement and counselling services to help staff find new employment.

This restructure is no way a product of Australian economic, industrial or political factors – Gale Pacific values the strong support it has received from its staff, governments and the local community.

It is a result of rapid sales growth from customers in the northern hemisphere (expected to account for 70% of sales of value added consumer products within three years), and the realisation that we must improve our lead times to outperform our competitors.

This year the Company could not fully take advantage of significant sales opportunities due to its long lead times in both the European and US markets. With this restructure we can expect improved earnings from increased revenue, and a dramatically improved supply chain operation for our northern hemisphere markets.

Gale Pacific is confident the restructure will ensure the Company can continue to grow and strengthen its position as the world's leading manufacturer and exporter of advanced polymer fabrics and related value-added products.

The financial effect of the restructure will be both earnings and cash flow positive in the 2005-2006 transition year after expensing approximately $2.3M (before tax) of redundancy and relocation costs, with the full benefits of the restructure to be realised in 2006/2007.

FOI Document #14

The Company is highly confident of an effective implementation due to the successes of its Chinese operations to date, which have facilitated the rapid expansion of Gale's Coolaroo product range. In the Company's first year of European operations, the Coolaroo product range is being distributed in over 700 major home centres in Europe.

To: s47F
Subject: FW: Re: Shade cloth TC 0608185

s47F

I refer to our telephone conversation. The following proposed (but not accepted at this stage) wording for the shade cloth is:-

FABRIC, high density polyethylene, (HDPE), rachel knit, having
ALL of the following:
(a) ultra violet stabilizer;
(b) colour pigment;
(c) width NOT less than 0.9 metre and NOT greater than 4 metres
Tariff Classification : 6005.33.00

Stated Use:
Manufacturer of shade cloth, safety fencing, orchid covers

Could you please check and let me know if Australia Weaving Mills would manufacture this type of fabric.

Regards

FOI Document #18

25/5/06 I spoke to s47F of s47F he stated that he would conduct another local manufacturers search through KOMPASS on AUSSIE.COM

He stated that he will also write/email to the following companies:-

a) Council of Textile & Fashion Industries of Australia Limited
Level 2, 20 Queens Rd.
Melbourne Vic 3004
~~QLD~~

b) Bosch Textiles Pty Ltd
791 ~~South~~ Botany Rd.
Rosebery NSW 2018.

He stated that he would fax back copies of his new local manufacturers search and copies of letters sent to the above companies and any other Australian companies found by the new search. He also stated that he would review each re agreed charged TCO working.

FOI Document #19

Fabriclink Fabric University

The Educational Resource for Fabrics, Apparel, Home Fashion & Care

DICTIONARY OF FABRIC TERMS
Q - Z

Q

Quilting
A fabric construction in which a layer of down or fiberfill is placed between two layers of fabric, and then held in place by stitching or sealing in a regular, consistent, all-over pattern on the goods.

Return to Index

R

Ramie
A bast fiber, similar to flax, taken from the stalk of a plant grown in China.

Raschel Knit
A warp knitted fabric in which the resulting knit fabric resembles hand crocheted fabrics, lace fabrics, and nettings. Raschel warp knits contain inlaid connecting yarns in addition to columns of knit stitches.

Rib Knit
A basic stitch used in weft knitting in which the knitting machines require two sets of needles operating at right angles to each other. Rib knits have a very high degree of elasticity in the crosswise direction. This knitted fabric is used for complete garments and for such specialized uses as sleeve bands, neck bands, sweater waistbands, and special types of trims for use with other knit or woven fabrics. Lightweight sweaters in rib knits provide a close, body-hugging fit.

Rib Weave
One of the plain weave variations, which is formed by using: 1) heavy yarns in the warp or filling direction, or 2) a substantially higher number of yarns per inch in one direction than in the other, or 3) several yarns grouped together as one. Rib fabrics are all characterized by having a slight ridge effect in one direction, usually the filling. Such fabrics may have problems with yarn slippage, abrasion resistance, and tear strength. Examples of this construction include broadcloth, poplin, taffeta, faille, shantung, and cord fabric.

Rayon
A manufactured fiber composed of regenerated cellulose, derived from wood pulp, cotton linters, or other vegetable matter. Today, various names for rayon fibers are taken from different manufacturing processes. The two most commonly used production methods for rayon are the cuprammonium process and the viscose process.

Ken s47F
6/6/06

5/6/06 I spoke to s47F or s47F, he stated that he agreed with the above TCO wording changes.

He stated that the applicant, Gale Pacific, was contemplating manufacturing fabric and was not willing to narrow the TCO wordings at this stage.

I asked s47F to do another KOMPASS search on shade cloth as two words. He stated that he had done this and two companies appeared on the report. He will fax copies of this KOMPASS search and the letters to the relevant companies

ABN: 38 414 210 149

FAX TO: Australian Customs Service

ATTENTION: s47F

SUBJECT: TC 0608185

We refer to your further request as follows:

1) Explanation of Raschell Knit (this is the correct spelling);
2) Write to Listed companies of Shade cloth, the results are

(a) Kelmatt; See a copy of our email enquiry on them sent to you.
(b) Leisure Greenhouses; Spoke to s47F 3.40 PM 5/6, to obtain a contact email he wanted to discuss my enquiry and advised his company do not manufacture Fabric. I gave him a description of the fabric and he advised that the only known company was Gale Pacific (The applicant) he advised that the Customs can contact him for verification of this statement.

See attached a technical description of Raschell Knit.

Yours Faithfully

Fabric "Cooltone Range"

- Other fabrics will loosen and sag over time, our "Cooltone" fabric, a knitted high density polyethylene imported from South Africa, literally can not and will not sag. It will not stretch beyond it's intended size! In a process called *"Stentering"*, the polyethylene has been vaporized to eliminate the *"droop"* factor.

- A method of knitting called *"Raschell"* knitting is used in our fabric. Round threads are knitted together, looped and locked in a twill-like pattern that offers incredible strength. Broad flat polyethylene strips are woven through the knit to form the actual shade cover, while leaving enough space for warm air to rise straight through the fabric and away from the structure. Acrylics, canvas and other types of solid shade coverings actually add to the heat by trapping hot air below the structure.

- The fabric has a bursting strength is 350lb/sq. inch. It is primarily for Sun/Uv protection as well as being hail proof and mold proof. The fabric is highly chemically resistant and will not be effected permanently by foreign substances *(i.e. bird deliveries, paint, tree sap, etc.)*. It cleans with a quick spray from a garden hose.

- Best of all your Shade 'N Net structure will

FOI Document #22

block up to 96.7% of the Sun's harmful Ultra-Violet Radiation, in addition to lowering temperatures dramatically and providing up to 88% shade. The amount of protection depends upon which color is utilized, the darker the color, the greater the blockage.

- Almost all companies that supply shadecloth cable tension structures utilize netting that is manufactured in South Africa by one of two companies, either Knittex or Alnet. We import our shadecloth directly from Alnet, which is located in Capetown, South Africa. Shade 'N Net is also a distributor for Alnet, selling to awning companies in other states. Every company will tell you why the shadecloth they use is superior. We only suggest that our clients get a sample of both and judge for themselves. The difference was obvious to us, that's why we chose Alnet. Alnet's shadecloth is the only netting endorsed by the South African Cancer Society!

Dear s47F ,

TARIFF CONCESSION SYSTEM
APPLICATION ACCEPTANCE

Your application for Tariff Concession Order (TCO) Number TC 0608185 has been accepted by Customs as a valid application. The application will be published in Gazette Number TC06/23 of 14 June 2006. Details of the gazette notice are shown in the attachment.

Please examine the wording of the gazette notice and advise Customs immediately if the wording does not accurately describe the goods for which a TCO has been sought. This is a verification of agreed wording not an opportunity to further amend.

Yours sincerely,
s47F

The Manager
KELMATT
36 JELLICO DRIVE
SCORCESBY VIC 3179

Dear Sir,

TARIFF CONCESSION SYSTEM
NOTIFICATION OF APPLICATION

An application has been made for a Tariff Concession Order (TCO) as described in the attachment.

The Tariff Concession System allows for a concessional rate of Customs duty where it can be established that on the day on which the application was lodged, no substitutable goods were produced in Australia in the ordinary course of business.

To allow for comments by local manufacturers, all applications for Tariff Concession Orders are published in the Commonwealth Gazette. In this instance, Customs is bringing to your attention Gazette Number TC06/23 of 14 June 2006 in which a description of the goods in the attachment has been published.

In accordance with section 269M of the *Customs Act 1901*, you are invited to lodge a submission objecting to the making of this TCO if you consider that you have any reasons to oppose the making of the TCO.

Objections to Tariff Concession Orders by local manufacturers must be submitted on an approved form. As required by legislation, your submission must be lodged with Customs in accordance with the methods of lodgement specified on the approved form no later than 3 August 2006.

Yours sincerely,

s47F

Dear s47F ,

TARIFF CONCESSION SYSTEM
APPLICATION SUCCESSFUL

I refer to your application for Tariff Concession Order (TCO) Number TC 0608185 lodged on 11 May 2006.

As a delegate of the Chief Executive Officer I am satisfied that the application meets the core criteria on the basis of section 269C of the *Customs Act 1901* and have accordingly made a written Tariff Concession Order.

The decision to make a TCO will be published in Gazette Number TC06/31 of 9 August 2006.

The TCO, as detailed in the attachment, will also be published in the Schedule of Concessional Instruments as soon as possible.

Yours sincerely,
s47F
